About the Winery From the lands to your taste buds, a family story... The great wine adventure of Domaine des Mûriers began in the '70s on the shores of Lake Neuchâtel. Fifty years later, the Burgat family continues to bring to life the unique taste of the grapes, cultivated according to organic and biodynamic methods. For the love of nature, traditions and the land... The vineyards include five hectares of land, harvested by hand, free of pesticides, following the rhythm of the seasons. The grapes are slowly pressed and the wines are created in an artisanal manner. Domaine des Muriers holds a Demeter Quality label and is a member of the Bio-Suisse group. A Domaine, to discover or rediscover red, white, rosé, sweet or Grand Réserve wines, there is no doubt that you will find your favourite among their different grape varieties and labels.
