OAKER INTENSE TOAST BITTERS

Barrel Aged Aromatic Enhancer

OAKER is a flavour enhancer made from an infusion of French oak wood, previously strongly toasted. This infusion is distilled in a micro still and aged in Cognac barrels, and then aged in old barrels that contained Cognac. Its alcoholic volume at 44% makes it an essential ingredient for cocktails and dishes, adding roundness and depth to each creation.

Tasting notes

Color
Pale straw

Aroma
Aromas of marshmallo, tobacco & dried currants

Taste
Soft, medium dry body with an engaging, medium-length creamy finish

Finish
A nice and delicious smoke
