

BIMBER KUMQUAT GIN

Handcrafted in London

Bimber Kumquat Gin is a clear, crisp and refreshing gin produced from eight botanicals, including grapefruit, lemon, orange, iris, angelica, coriander, juniper and Kumquat. Kumquat is a rare citrus variety native to China that grows slowly and produces luscious tasting fruits. Bimber Kumquat Gin is expertly handcrafted at the London distillery and is presented as a classic juniper and citrus-infused gin, bursting with vibrant and bold flavours. This gin is incredibly versatile: it can be enjoyed in a simple gin & tonic or served over ice with a splash of soda water or ginger ale. Bimber Kumquat Gin is also great for a martini - just add it to your favourite vermouth.

Tasting notes

Color

Clear

Aroma

Classic aromas of juniper berry, followed by exotic Kumquat, grapefruit and citrus.

Taste

Elegant and subtle. Indeed, the strong notes from kumquat are surrounded by a playful floral palate with citrus and spices. Simply fresh, crisp and flavourful.

Finish

Vibrant, fresh and zesty.
