Tasting notes

Color

Clear

Aroma

Fresh botanical bouquet with a delicate orange peel aroma followed by crisp notes of lemongrass and green pears.

Taste

Juniper gives the pleasant spice that defines the basic structure of a fine gin. Black Currant along with the white rum is responsible for the pleasantly full mouthfeel and, like the juniper, provides a subtle earthy, tart note. Lemongrass delivers fresh, fruity and lively notes. Orange peel rounds out the other flavours and combines the other essentials into a whole. Leaf Coriander pairs incredibly well with fruity tonics in the glass. For a tonic pairing, please check our selection.

Finish

Long, fruity and spicy.
