

## GIN SUL GRÉCIA

### Caminho Do Sul | 2021 Edition

Caminho do Sul Grécia was created in collaboration with ouzo distiller Yiorgos Stathopoulos. The bottle features a design by Hamburg tattoo artist Tobias Tietchen. The 2021 "Caminho do Sul" is a special edition inspired by the aromas of the neighbouring countries of the Mediterranean. "Caminho do Sul" in Portuguese means the "Path of the South". Caminho do Sul Grécia is filled into the typical Gin-Sul clay jugs and is limited to 3,000 numbered bottles.

#### **Tasting notes**

##### **Aroma**

Aromatic, spicy and complex fragrance.

##### **Taste**

Fresh notes of anise, accompanied by the presence of juniper and seconded by the fragrant resin of the Greek mastic tree, have an intense, full-bodied and fresh effect.

##### **Finish**

The sweet combination of green fennel, star anise, fresh citrus and the touch of spicy thyme bridges the gap between gin and ouzo.
