

HENDRICK'S AMAZONIA GIN

Limited Edition

A limited-edition from the series "Cabinet of Curiosities". Several years ago, Master Distiller Ms Lesley Gracie ventured into the South American Amazon where she found the inspiration for this very special gin, which is infused with natural tropical flavours. In gratitude to the Amazon, Hendrick's has partnered with One Tree Planted, a global environmental organization committed to reforestation efforts in the Amazon Rainforest. For every purchased bottle of Hendricks Amazonia, a tree will be planted.
