JUNE WILD PEACH & SUMMER FRUITS

Flavoured Gin by G'Vine

G Vine JUNE is a vibrant, natural creation combining the elegance of wild peach with the flavour of summer fruits and unconventional grape-based G'*Vine Gin. As a summer drink, it blossoms best with any selection of flavoured (mineral) water, tonic or even with Prosecco as a sprizz. The wild peach, known worldwide for its flavour, naturally grows in French vineyards. The grapes for G'Vine Gin come from these vineyards too.

Tasting notes

Color

Clear and light.

Aroma

Fruity, delicate aroma of wild peach and summer fruits.

Taste

Well-rounded, subtle spiciness, delightful texture.

Finish

Soft and long

About G'Vine Gin. G'Vine is an innovative premium gin crafted by Maison Villevert in the heart of Cognac. Made with vine blossoms, French grape brandy, and a blend of ten aromatic botanicals. The varieties include Uni Blanc, Merlot, Falle Blanche, and Cabernet Sauvignon, which bloom in June. These flowers are hand-picked, soaked, and macerated in neutral grape spirit for several days before being double-distilled in alembic stills. The result is a round, well-structured Gin with a delicate balance of botanical aromas and spices.
