# GRAND KHAAN SUPER PREMIUM

## Original Mongolian Vodka

A limited edition small batch vodka, distilled exclusively from the finest organic summer wheat grown on the Mongolian steppes where the grain is locally harvested, carefully grown and fermented at a height of 4,000 feet above sea level. The water used for this super premium vodka originates from crystal clear springs that begin as winter snowfall in the native mountains of Chinggis Khaan. Grand Khaan Super Premium Vodka is triple distilled, filtered nine times through quartz sand, white stone, charcoal from silver birch and microfilters for optimal flavor and smoothness.

**Tasting notes**

**Taste**

A magnificent vodka with velvety texture and delicate aromas.
