SIX DOGS BLUE

Small Batch Gin

Six Dogs embodies the freshness of classic dry gin with earthy tones and fresh and light floral notes. This Blue Gin gets its name and color from the blue pea flower, which is processed in a particularly gentle extraction process and added during the distillation process. Other botanicals besides juniper berries are geraniums, naartjies and coriander seeds. Only 66 bottles are filled per batch.

Tasting notes

Taste

Very intense, fruity and elegant. By adding tonic water, the blue gin turns pink. The color is entirely natural and it will fade over time. Six Dogs is best stored in its box, or once opened in the fridge
