

## CLASE AZUL DURANGO

### Mezcal | 100% Cenizo

Mezcal Clase Azul Durango is made from various wild agave found in Durango in Northern Mexico, where mineral-rich soils and natural spring water give a distinctive smoky character to the final spirit. The distillation process follows artisanal methods to preserve the original flavours of the ancient tradition. Clase Azul Durango is presented in a black clay decanter, carved by hand by artisans from a small community of the Mazahua people. Artisans from the Wixárika culture are the creators of the colourful cap.

#### **Tasting notes**

##### **Aroma**

Citrus and herbal, green olive, cooked agave, and cloves.

##### **Taste**

Medium bodied. Peanut, brown sugar, wood, chocolate, and notes of ripe fruit.
