

CLASE AZUL GUERRERO

Mezcal | 100% Agave Papalote

Inspired by the gastronomy, art, heritage and leadership of the women from the Guerrero state. Clase Azul Mezcal Guerrero is made from a rare variety of agave that grows wild in the mountain ranges of Guerrero's state. The flavour of the Agave Papalote is greatly influenced by the coastal climate and green forests surrounding the region. The decanter is an artisanal piece that pays tribute to the Mexican woman's ancestral wisdom, tender nature, and warrior spirit. The green colour represents jade, a precious stone of extreme value to ancestral cultures and a symbol of eternity. The four-petaled flowers covering the decanter represent the Fifth Sun, a pre-Hispanic god known as the origin of everything. The colourful cap features the figure of a hummingbird, the fabled messenger of the Gods, reaffirming its mystical and celestial connection to the region.
