Tasting notes

Independent Bottler Rest and Be Thankful Rest & Be Thankful is an existing brand that started ten years ago. Relaunched with a new identity and a dual approach to Scotch Whisky and Jamaican Rum driven by its roots. Over 80 expressions of single casks from the most prestigious Scottish distilleries including Macallan, Bruichladdich, and Springbank, amongst others, have been released under the label. Named after two beautiful sites, one located in Loch Lomond National Park in Scotland and the other in Cockpit Country in Jamaica. And just as their name suggests, their rums and whiskies should be slowly savoured to invoke a sense of "Rest and Be Thankful". Created by brand specialists & independent bottlers Eamonn Jones, Romain Larcheron and Thomas Picard from Fox Fitzgerald. Their purpose is to bring authentic, honest bottlings to meet consumer expectations.
