

RENEGADE PEARLS 2021

Pre-Cask Rum | Pot Still | Single Farm Origin

The Pearls' site is located on the windward east coast on fertile agricultural land along the north side of the Simon River. The site is about a quarter of a mile inland from the Atlantic Ocean. This fascinating terroir is set amidst mangroves and floodplains of the coastal plain, just a few miles south of the distillery, and rests on a distinctive ferruginous volcanic laterite rock. On this water-retaining soil, derived from the clay soils of Woburn and Perseverance, sugar cane crops thrive. The elegant "Yellow Lady" variety was grown for this rum on the "Grapefruit" Estate, which lies on land known as the "Flats". Renegade rums are made with sugar cane juice as a primary ingredient, they are natural in colour as in texture, unsweetened and un-chill-filtered.

Tasting notes

About the Renegade Rum Distillery The distillery is located in Grenada, a small, mountainous island of volcanic origin found about 90 miles north of Trinidad and Venezuela, where the central mountains are characterised by tropical moist forest vegetation. Renegade Rum Distillery is an industry-changing project from the man behind the renaissance of Islay's Bruichladdich single malt whisky and Ireland's groundbreaking, terroir-driven Waterford Distillery. His vision is to produce the most profound rum the world has ever seen focused on the cane, terroir and provenance. Renegade Rums are modern masterpieces, carefully designed to bring out the individuality of terroir, the purity of long fermentation and thoughtful distillation.
