BELUGA VODKA CELEBRATION

Limited Edition | Mariinks Distillery

These are the last bottles that were produced in Russia. Created to celebrate the 115th anniversary of the historic Mariinsk Distillery, Beluga Celebration Vodka combines craftsmanship, innovation, and luxury. As Beluga vodka is no longer produced in Russia, this release is ideal for collectors searching for bottles from the brand's original production era. This special edition comes in a bespoke decanter crafted using metallization techniques and finished with a double-platinum coating and an elegant gold lacquer. The final stage is made through a silkscreen printing method.
