

BELVEDERE SMOGORY FOREST

Single Estate Series | Rye Vodka

An exceptionally bold and savoury vodka that captures the essence of an unspoiled region, evoking the dense hardwood forests dominating the Smogory Forest in western Poland. The rye used for this vodka is a rare type called Diamond Dankowskie, which grows in a tiny rural village surrounded by the region's vast, pristine forests. The Single Estate Rye Series celebrates Belvedere's craftsmanship and expertise in vodka distilling, as well as their ability to create vodkas of a complex character. When tasted side by side, each vodka delivers different taste profiles, illustrating the variation of terroir on the same Dankowskie Diamond rye grown in each unique location. Wine connoisseurs would speak of the terroir here.

Tasting notes

Color

Clear

Aroma

Delicate cereal notes, accompanied by a hint of nougat

Taste

Velvety texture with sweet notes of malt, caramel, a hint of pepper and honey

Finish

Medium length, honey sweet finish
