

FABERGÉ IMPERIAL COLLECTION VODKA

Pink White Marble

Imperial Vodka Fabergé Egg Pink Marble is made from exceptional Saratovskaya wheat and water from Ladoga Lake. The grain is a southern variety with a high starch content and a strong flavour profile. Imperial Vodka undergoes a multiple refinement process where the spirit is filtered five times through highly active birch charcoal, a silver filter, and a membrane filter, creating a smooth profile designed for true connoisseurs. Imperial Vodka is presented in unique handmade cases in the form of eggs inspired by the works of Karl Faberge. The metal alloy cases are covered with enamel of different colours, each decorated with gilded elements and embellished crystals.

Tasting notes

Taste

The palate is soft with notes of creamy vanilla, citrus zest and a touch of honey.
