Tasting notes

Taste

It has the typical malty taste of genever and the fresh citrusy taste of Gin. This fresh & aromatic taste is a result of orange blossoms, which are distilled with various other botanicals.

VL92 Gin VL92 XY Gin is made at the Van Toor Distillery in Vlaardingen, born of the quest of two entrepreneurs to find their ultimate gin. Built upon a malt wine foundation, VL92 Gin has its roots in the Dutch Genever tradition. The malt wine gives it its boldness; its complexity derives from the play between botanical elements that finish with the eccentric, citrusy endnote of a most surprising ingredient: coriander leaf.
