LDV L'EAU DE VODKA

Swiss Vodka | 8× Distilled | Alpine Herbs

L'Eau de Vodka by LDV pours at 40% volume in a minimalist, crystal-trimmed flask. The brand draws on water from deep in the Alpine massif and a measured bouquet of Swiss-grown botanicals — built equally for a slow neat pour and as a serious cocktail base. DISTILLATION: an eightfold distillation paired with a six-stage filtration through Swiss rock crystals — a process designed for maximum mildness and a flawless, neutral character. SERVING: serve straight from the freezer in a small chilled glass, or stirred over a single large ice cube to let the alpine notes come forward. Ideal in a Martini — 6 cl LDV, 1 cl La Quintinye Vermouth Royal Dry, stirred over ice, strained into a chilled coupe with a lemon twist.

Tasting notes

Color

Clear and bright, flawlessly transparent, with a crystalline shine in the glass.

Aroma

Subtle vegetal touch with a faint mountain-water minerality at the back.

Taste

Round and supple palate, immediate softness, no harshness or burn.

Finish

Brief warmth at the close, last earthy trace, no bitterness.

L'EAU DE VODKA L'Eau de Vodka is the Swiss vodka project of Swiss Spirits based in Zürich. The bottle is its own marker: a clean straight-sided silhouette in clear glass, a crystal-studded closure, matte silver typography on the front face. Production and bottling 100% in Switzerland, certified to the highest levels.
