Whisky Is The Limit (WITL) Whisky Is The Limit is an independent bottler from Switzerland that specializes in small casks bottlings. From the Producer "New adventures and a new identity. It was only after years in the world of whisky that the project of independent bottling came into being. It is the result of years of meetings and tastings that allowed me to continue this new activity. Selecting the casks that represent my world and my vision of whisky is an exciting but difficult task."
