Koval Distillery The Koval Distillery combines traditional and contemporary techniques. Founded in 2008 by Dr. Sonat and Dr. Robert Birnecker, it is Chicago's first since the prohibition. All of their products are Certified Organic and Certified Kosher. The water, which is an essential ingredient in distillation, is sourced from Lake Michigan using a natural charcoal purification method. The Koval Whiskeys are all "heart cut"; in order to produce a high-quality spirit, they use only the purest and best-tasting part of the distillate called "Hearts" (Ethanol 78°C). Koval, a truly American spirit from organic Midwestern grains.
