

MACALLAN HORIZON X BENTLEY

2024 Single Malt Whisky

The Macallan Horizon Bentley whisky is a revolutionary collaboration between two icons of luxury: the renowned Scottish whisky distillery, The Macallan, and British automotive giant Bentley Motors. This edition is composed of six first-fill sherry-seasoned oak casks that exude intensity of flavour, texture, and natural colour. This reflects the extraordinary partnership and creates a single malt that is as much a collector's item as a whisky fan's dream. The Macallan Horizon series combines innovation, timeless craftsmanship, sustainability and forward-thinking design. The decanter is crafted from six responsibly sourced materials, symbolizing Macallan's Six Pillars of whisky-making philosophy. These materials include recycled copper from Macallan's disused stills and Bentley-sourced leather, blending history, sustainability, and luxury. This limited-edition whisky is housed in a unique, horizontal decanter inspired by the aerodynamic lines of Bentley cars. Whether you're a whisky connoisseur, a design enthusiast, or a collector, this collaboration sets a new horizon in the world of luxury spirits.
